- An excellent gift idea! Capitalize on the high-demand season to quickly generate extra income within minutes, rather than your current custom frame lead times.
- Upsell your Ready-Made Frames by offering custom framing options such as a matboard, specialty glass, mounting, fitting or a full custom framing job!
- Introduce your framing business to potential new customers by marketing a high quality, off-the shelf framing solution.
- Champion sustainability through FSC certification and waste reduction, ensuring that no unnecessary costs or labour go to waste.
- Maintain uncompromising quality standards. All our frames adhere to the Larson-Juhl standard, setting your business apart from the conventional big box stores.
- Selecting premium ready-made frames will alleviate the inconvenience of framing smaller jobs and enable you to pursue larger custom framing projects.
